

## about **Ingela Hageman**

### *About the artist*

#### **Swedish Film- and Computerartist Ingela Hageman**

Ingela Hageman is a Swedish Film- and Computerartist living and working in Stockholm, Sweden. She has made a very conscious decision—

**to make Positive and Spiritual Inspiring Art! She say:**

**“In the act of creativity I have often felt like a Priestess performing magical rituals to invoke Eternity.”**

“My aim as an visual artist is to give the spectator something Pleasant, Spiritual Inspiring, Humourous or/ and even Provoking.

My hope is to uplift and influence the consciousness of the spectator and indirectly of the collective consciousness of mankind--giving birth to a more expanded and realized view.”

“My aim is that my artwork will provide a kind of meditationobject-- by which the spectator will be brought to another dimension of reality-- a Dreamworld, a Fantasyworld in which Playfulness and Spontaneity dominates. I’m very interested in altered states of consciousness and the effects of Rejuvenation and Healing it has on the whole organism.”

**”I take my role as an artist and pathfinder very seriously.**

For me it is a big responsibility to live as an artist--both in this society and in this world-- and to contribute to mankind by this very dedicated Lifework.”

I believe Art has a more important role than what is understood at the present time.

I look upon the Artist as a very important person in society.

In this period and dimension of great suffering, Art can deeply influence and contribute to uplifting both society and the individual-- and by the mean of Beauty or skillful Artistry can throw us out of the little box of ego we normally view our world from--and let us taste the flavour of Eternity. This is a truly rejuvenating experience that can heal our minds and bodies in ways beyond comprehension.”

#### **About the artist**

Ingela Hageman is a modern mystic with studies and experiences in many different spiritual systems such as **Tantra, Sufism, and Tibetan Buddhism**--which has deeply influenced her work as an artist. She has been studying with many famous spiritual masters. Ingela is also a modern artist who works with high-technology.

The Computer and the Videocamera are her tools and virtual ateljé.

#### **Travels**

Travelling and experiencing new and different cultures is fundamental in her artistry. She has been living in Hong Kong and USA in her late teens--and visited--and been influenced by many of the ancient High Cultures--like India, Egypt, Mexico, West Africa, etc. Her latest travels went to Goa in India and Korfu in Greece.

#### **Education**

Initially she is a painter with 8,5 years of traditional studies at different painting-schools. She has also been studying Computer-Art at the University of Skövde, Sweden, and also has an education in Video Art. She also has a degree in Tantra from the University of Lund. Totally she has 15 years of studies within Art, Film, Webdesign and Computing.

#### **Exhibitions**

She has had about 30 one-woman-shows at different Art Museums, Arthalls and Galleries-- and participated in about 55 major group exhibitions.
